Dear Sir ,

We are happy to inform that , your team has worked well and appreciated by our client. Due to unexpected problems in Main Heat ex changer and cold box the works has come to stand still . Monnet people were busy in solving the problems .

As your team has completed all the available works .

So , Instead of keeping idcal here with out any work it will be better to with draw team, till full fledged front is available . The front may be available after 4- 5 weeks .

The turbo blower work will also be ready by then , regarding electrical work we will discuss it after arrival to vizag with in a week .

Regards,

K.J.RAO
